

# SERVICE MANUAL

Ver 1.1

ISSUE DATE: Feb. 15, 2019

- ▶ Please read the manual carefully and keep it in mind before using this machine.
- ▶ Put this manual within touch of your reference in anytime.

# PRECAUTIONS FOR USE

The following safety precautions are given throughout this manual. They must be strictly followed to protect those who install, use or maintain this product as well as to protect players, visitors and property.

## For safety reasons.

- The following suggestions should be adhered to:

Disregarding could result in serious injury.

Disregarding could result in injury or product damage.

- The following graphic suggestions describe the types of precautions to be followed.

Indicates a care should be taken.

Forbidden.

Indicates a matter which must be performed.

- **Precautions to be followed:**

**Certain procedures require a qualified in-shop maintenance person or industry specialist.**

**For such instructions, a qualified person must take care of the jobs.**

- Otherwise an electric shock, machine trouble or a serious accident may result.
- Replacing the machine parts, inspecting and maintaining the machines and troubleshooting must be assigned only to a qualified in-shop maintenance person or industry specialist. This booklet gives instructions that hazardous jobs in particular must be handled by an industry specialist. Qualified in-shop maintenance person and industry specialist are defined as follows.

### **Qualified in-shop maintenance person**

- A service staff shall have experience in operations of game machines. The staff shall be responsible for assembly, installation, inspection and maintenance of the machine.

### **Industry specialist**

- An industry specialist must be engaged in designing, manufacturing, inspecting and servicing amusement machines. He or she must have an education in electrical, electronic and mechanical engineering and routinely maintain and repair amusement machines.

# PRECAUTIONS FOR USE

## WARNING

**Be sure to consult an industry specialist when setting up, moving or transporting this product.**

- This product should not be set up, moved or transported by any one other than an industry specialist.
- When installing this product, set the 4 leg levelers evenly on the floor and make sure that the product is installed stably in a horizontal position. Unstable installation may result in injury or accident.
- When installing this product, do not apply undue force on movable parts. Otherwise, injury and accident may result, or the product may be damaged.

**The machine for indoor usage only does not install outside.**

**Do not set the game machine up near emergency exits.**

**Protect the game machine from:**

- Rain or moisture.
- Direct sunlight.
- Direct heat from air-conditioning and heating equipment, etc..
- Hazardous flammable substances.
- Otherwise an accident or malfunction may result.

**Do not place containers holding chemicals or water on or near the game machine.**

**Do not place objects near the ventilating holes.**

**Do not bend the power cord by force or place heavy objects on it.**

**Never plug or unplug the power cord with wet hands.**

**Never unplug the game machine by pulling the power cord.**

## CAUTION

**Be sure to use indoor wiring within the specified voltage requirements. For extension cord, use the specified rating or more.**

**Be sure to use the attached power cord.**

**Never plug more than one cord at a time into the electrical receptacle.**

**Do not lay the power cord where people walk through.**

**Be sure to ground this product.**

**Do not exert excessive force when moving the machine.**

**For proper ventilation, keep the game machine 100mm(4") away from the walls.**

**Do not alter the system related dipswitch settings.**

# PRECAUTIONS FOR USE

## WARNING

**If there is any abnormality such as smoke, bad smell or abnormal noise being emitted from the machine, immediately turn OFF the main power switch and unplug the power cord from the receptacle to stop operating it.** 

- Using the machine in abnormal conditions could result in fire or accidents.

### In case of abnormality

1. Turn OFF the main power switch.
2. Unplug the power cord from the receptacle.
3. Contact your nearest dealer.

**Do not leave the power cord plugged in improperly or covered with dust.** 

- Doing so could result the power cord periodically.

## CAUTION

**Do not use this product anywhere other than industrial areas.** 

- Using in a residential area or an area next to a residential area could affect signal reception of radios, television sets, telephones and etc..
- Do not give shock the surface of glass products.

- Please do not play this game if
  - When you do drinking;
  - When your physical condition is not normal;
  - When you are in pregnancy;
  - When you have on a pulse controller;
  - When you have recently experienced a cramp or fainting away while watching TV.
- Avoid excessive force/shock while playing/moving the game.
- While do games, pay attention to surrounding.

**Do not plug or unplug the power cord with wet hands.** 

**In handling the power cord, follow the instructions below.** 

- |   |  |
|---|--|
| • Do not damage the power cord.           | • Do not modify the power cord.            |
| • Do not bend the power cord excessively. | • Do not twist the power cord.             |
| • Do not heat the power cord.             | • Do not pull the power cord.              |
| • Do not bind the power cord.             | • Do not stand on the power cord.          |
| • Do not sandwich the power cord.         | • Do not drive a nail into the power cord. |

**If the power cord or power plug becomes damaged, stop using the machine immediately and ask your nearest dealer to replace the parts.**

**\* Electromagnetic wave may cause unexpected noise from speaker.**

# PRECAUTIONS FOR USE

## ⚠ WARNING

Be sure to turn OFF the main power switch and unplug the power cord from the receptacle before inspecting or cleaning the machine.

When replacing parts, be sure to use parts of the correct specifications. Never use parts other than the specified ones.

Opening inside the machine shall be done by machine specialist only as high electric current is being sent inside. For game machine with monitor, a care should be taken while opening its back door. If not, a damage to the inside parts or the monitor may occur.

If the sub power switch of the service panel is turned OFF without turning OFF the main power switch of the power supply unit, some parts in the units remain live. When opening the back door, be sure to turn OFF the main power switch and unplug the power cord from the receptacle.

Strictly refrain from disassembly and repair of parts which are not indicated in this manual, as well as settings and remodeling.

To clean the game machine, wipe it with a soft cloth dampened in a neutral detergent.

- Using thinner or other organic solvent or alcohol may decompose the material.
- Electrical shock or equipment failure could be caused by water entering the inside of the machine.

## ⚠ CAUTION

Components in the game are sensitive to vibrations and impact. Care should be used when moving and transporting the game machine.

Be sure not to let the machine tip over.

Before moving the machine, be sure to turn OFF the main power switch, unplug the power cord from the receptacle and remove the power cord from the machine.

Before moving take the machine, off the levelers and move it on the casters.

Avoid excessive force while moving the machine.

.....

## PRECAUTIONS IN HANDLING

- When setting up, inspecting, maintaining, moving or transporting this product, follow the procedures and instructions set forth in this manual and perform such work safely.
- Do not set up, handle, inspect, maintain, move or transport this product under conditions equivalent to the condition of "WARNING" or "CAUTION" specified in this manual.
- If a new owner is to have this product as a result of transfer, and etc., be sure to give this manual to the new owner.

# PRÉCAUTION D'EMPLOI

Les consignes de sécurité suivantes sont données dans ce manuel. Elles doivent être strictement suivies pour protéger ceux qui les installent. Utiliser ou entretenir ce produit pour la sécurité des utilisateurs, des visiteurs et des biens.

Pour des raisons de sécurité.

- **Les suggestions suivantes doivent être respectées:**

## **ATTENTION**

Le non-respect peut entraîner des blessures graves.

## **PRUDENCE**

Le non-respect peut entraîner des blessures ou des dommages au produit.

- **Les suggestions graphiques suivantes décrivent les types de précautions à prendre.**

Indique qu'attention est requise.

Interdit.

Indique que quelque chose doit être effectuée.

- **Les précautions à prendre :**

**Certaines procédures exigent une personne de maintenance qualifiée en atelier ou un spécialiste de l'industrie. Pour ces instructions, une personne qualifiée doit prendre soin des travaux.**

- Sinon, un choc électrique, un dysfonctionnement de la machine, ou un accident grave peut en résulter.
- Remplacement des pièces de machines, l'inspection et la maintenance des machines, et le dépannage doit être attribué qu'à une personne de maintenance qualifiée en atelier ou spécialiste de l'industrie. Cette brochure donne des instructions que les emplois dangereux, en particulier, doivent être traités par un spécialiste de l'industrie. La personne de maintenance qualifiée en atelier et le spécialiste de l'industrie sont définis comme suit.

### **La personne de maintenance qualifiée en atelier**

- Un personnel de service doit avoir de l'expérience dans les opérations de machines de jeux. Le personnel est responsable pour l'assemblage, l'installation, l'inspection et l'entretien de la machine.

### **Le spécialiste de l'industrie**

- Un spécialiste de l'industrie doit être engagé dans la conception, la fabrication, l'inspection et l'entretien des appareils d'amusement.  
Il ou elle doit avoir une formation en génie électrique, électronique et mécanique, et de maintenir régulièrement et de réparer les appareils d'amusement.

# PRÉCAUTION D'EMPLOI

## ATTENTION

Si il y a une anomalie comme fumée, mauvaise odeur ou bruit anormal émis par la machine,  couper immédiatement l'interrupteur principal et débranchez le câble d'alimentation de la prise pour arrêter son fonctionnement.

- L'utilisation de l'appareil dans des conditions anormales peut provoquer un incendie ou un accident.

En cas d'anomalie

1. Mettez l'interrupteur principal sur ARRÊT.
2. Débranchez le câble d'alimentation de la prise.
3. Contactez votre revendeur le plus proche.

**Ne pas brancher le câble d'alimentation incorrectement ou le laisser être recouvert de poussière.** 

Cela pourrait nuire le câble d'alimentation.

## PRUDENCE

**Ne pas utiliser ce produit ailleurs que dans les zones industrielles.** 

- L'utiliser dans une zone résidentielle ou d'une zone à côté d'un quartier résidentiel pourrait nuire à la réception des radios, téléviseurs, téléphones, etc.
- Ne donnez pas de choc à la surface d'un produit en verre.

- S'il vous plaît ne pas jouer à ce jeu.
  - Quand vous buvez;
  - Lorsque votre condition physique n'est pas normale;
  - Lorsque vous êtes dans une période de grossesse;
  - Lorsque vous avez un contrôleur d'impulsion;
  - Lorsque vous avez récemment subi une crampe ou évanouissement en regardant la télévision.
- Évitez une force excessive / un choc pendant la lecture / de déplacer le jeu.
- Quand vous jouez les jeux, faites attention aux alentours.

**Ne pas brancher ou débrancher le câble d'alimentation avec les mains mouillées.** 

**Dans la manipulation du câble d'alimentation, suivez les instructions ci-dessous.** 

- |  |   |
|--|---|
| • Ne pas endommager le câble d'alimentation.                 | • Ne pas modifier le câble d'alimentation.            |
| • Ne pas plier le câble d'alimentation de manière excessive. | • Ne tordez pas le câble d'alimentation.              |
| • Ne pas chauffer le câble d'alimentation.                   | • Ne tirez pas sur le câble d'alimentation.           |
| • Ne pas lier le câble d'alimentation.                       | • Ne montez pas sur le câble d'alimentation.          |
| • Ne pas prendre en sandwich le câble d'alimentation.        | • Ne pas mettre un clou dans le câble d'alimentation. |

**Si la fiche du câble d'alimentation ou est endommagé, cessez immédiatement d'utiliser la machine et demandez à votre revendeur le plus proche de remplacer les pièces.**

# PRÉCAUTION D'EMPLOI

## ATTENTION

**Assurez-vous de consulter un spécialiste de l'industrie lors de la mise en place, du déplacement ou le transport de ce produit.**

- Ce produit ne doit pas être mis en place, déplacé ou transporté par une quelconque autre qu'un spécialiste de l'industrie.
- Lors de l'installation de ce produit, installez 4 niveleurs de pieds uniformément sur le sol et assurez-vous que le produit est installé de façon stable dans une position horizontale. Une installation instable peut entraîner des blessures ou un accident.
- Lors de l'installation de ce produit, ne pas appliquer une force excessive sur les pièces mobiles. Sinon, des blessures et des accidents peuvent y résulter, ou le produit peut être endommagé.

**La machine pour une utilisation en intérieur uniquement, ne pas installer à l'extérieur.**

**N'installez pas la machine de jeu près des issues de secours.**

**Protéger la machine de jeu de:**

- L'humidité ou la pluie.
- La lumière directe du soleil.
- La chaleur directe de la climatisation et du chauffage, etc...
- Des substances inflammables dangereuses.
- Sinon, un accident ou un dysfonctionnement.

**Ne pas placer les récipients contenant des produits chimiques ou de l'eau sur ou près de la machine de jeu.**

**Ne placez pas d'objets à proximité des orifices de ventilation.**

**Ne pas plier le cordon d'alimentation par la force ou de placer des objets lourds au-dessus.**

**Ne jamais brancher ou débrancher le cordon d'alimentation avec les mains mouillées.**

**Ne jamais débrancher la machine de jeu en tirant le câble d'alimentation.**

## PRUDENCE

**Veillez à utiliser le câblage intérieur selon les exigences de tension spécifiées. Pour une rallonge, utilisez la notation spécifiée ou plus.**

**Veillez à utiliser le cordon d'alimentation fourni.**

**Ne jamais brancher plus d'un cordon à la fois dans la prise électrique.**

**Ne pas poser le cordon d'alimentation où les gens marchent à travers.**

**Soyez sûr de mettre à la terre ce produit.**

**Ne pas exercer une force excessive lors du déplacement de la machine.**

**Pour une ventilation correcte, garder la machine de jeu 100mm (4 ") loin des murs.**

**Ne pas modifier les réglages des commutateurs DIP liées au système.**

# PRÉCAUTION D'EMPLOI

## ATTENTION

Veillez à éteindre l'interrupteur d'alimentation principale et débranchez le cordon d'alimentation de la prise avant d'inspecter ou de nettoyer la machine. 

Lors du remplacement des pièces, veillez à utiliser une partie des spécifications correctes. Ne jamais utiliser de pièces autres que celles spécifiées. 

L'ouverture à l'intérieur de la machine doit être effectuée par le spécialiste de la machine seulement, comme le courant électrique élevé est transmis à l'intérieur. Pour la machine de jeu avec le moniteur, un soin doit être pris lors de l'ouverture de sa porte arrière. Si non, une détérioration des pièces à l'intérieur ou à l'écran peut se produire. 

Si l'interrupteur secondaire du panneau de service est éteint sans éteindre le commutateur d'alimentation principale de l'unité d'alimentation, certaines parties dans les unités restent sous tension. Lors de l'ouverture de la porte arrière, veillez à éteindre l'interrupteur d'alimentation principale et débranchez le cordon d'alimentation de la prise. 

Il est strictement conseillé de s'abstenir de démonter et de réparer des pièces qui ne sont pas indiqués dans ce manuel, ainsi que les paramètres et le remodelage. 

Pour nettoyer la machine de jeu, l'essuyer avec un chiffon doux imbibé avec un détergent neutre.

- L'utilisation plus mince d'un autre solvant organique ou de l'alcool peut décomposer le matériel.
- Un choc électrique ou une défaillance de l'équipement pourraient être causés par la pénétration de l'eau à l'intérieur de la machine.

## PRUDENCE

Les composants de la machine de jeu sont sensibles aux vibrations et aux chocs. Il faut faire attention lors du déplacement et le transport de la machine de jeu. 

Veillez à ne pas laisser la machine se renverser.

Avant de déplacer la machine, veillez à éteindre l'interrupteur d'alimentation principale, débranchez le cordon d'alimentation de la prise et débranchez le cordon d'alimentation de la machine. 

Avant de déplacer la machine, la mettre hors des niveleurs et le déplacer sur les roulettes.

Éviter une force excessive lors du déplacement de la machine.

.....

## PRÉCAUTIONS LORS DU MANIEMENT

- Lors de la mise en place, l'inspection, l'entretien, déplacement ou le transport de ce produit, suivez les procédures et les instructions énoncées dans ce manuel et effectuer ce travail en toute sécurité.
- Ne pas mettre en place, manipuler, inspecter, entretenir, déplacer ou transporter ce produit dans des conditions équivalentes à l'état de "ATTENTION" ou "PRUDENCE" spécifiée dans ce manuel.
- Si un nouveau propriétaire obtient ce produit à la suite d'un transfert, etc., soyez sûr de donner ce manuel au nouveau propriétaire.

## 2. INSTALLATION

### 2-1. INSTALLATION SPACE

- Need to have installation place.  
Maintenance zone & Play zone should have at least 2500mm x 2000mm each.

#### **\*IMPORTANT**

- Once you set up the machine with required game-play area, when installing this product, set the 4 leg levelers evenly on the floor and make sure that the product is installed stably in a horizontal position.

## 2-2. HOW TO INSTALL

### 1 \* BILLBOARD

- Please assemble in order of pictures from ① to ⑬

\* Connector assembly when assembling ⑩, ⑪, ⑬

### \* SPEAKER L, R

**2** - You complete it like picture.

### 3. GAME CHARACTERISTICS

---

**\* ALL THE CARDS ARE SUPERSTARS!**

- Easy and exciting play
- Powerful ball action
- Two player stations
- Collectible card set of 7 for super bonus

- Collectible legend card

## 4-5. FIELD TEST

### ● FIELD TEST

Exclusive Check Mode for Ball Shooting and Main Checker Sensor of Ball Elevator and Sensor Status of Pin Goal In

It changes to the information of Field Test when moving up and down the cursor at Set Up stage and pressing Down Button at Exit Item

Information about Field Test will be deleted by “Clear”, “Data Clear” or “Factory Set”

When pressing Start Button while test is not being performed, ball goes off automatically with the checker in a state of stop.

When testing after adjusting the position of main checker hole sensor in order for the balls go in, compare the status of check counter for checker and back up micro switch

When pressing the Ticket Button while test is not being performed, one ball goes off.

Use this function just in case of testing the ball shooting counter of ball elevator and sensor status exactly.

Display of LCD	Description
<b>SHOT COUNT</b> <b>500</b>	Number of balls to shoot for testing purpose FULL : Shooting without limitation on number of balls 500 : Shooting 500 balls (Changes by 100 from 100 to 100,000)
<b>PLAYER</b> "ALL"	Player to test ALL : 1P, 2P All Players 1P : 1 Player 2P : 2 Players
<b>SPEED</b> <b>0.5</b>	Time-Setting for ball shooting interval 0.3 : at an interval of 0.3 second, 0.5 : at an interval of 0.5 second, 1.0 : at an interval of 1.3 second, 1.5 : at an interval of 1.5 second, 2.0 : at an interval of 2.0 second
<b>TEST</b> <b>OFF</b>	Start Test OFF : State of stopping test ON : State of performing test <b>For reference, when pressing Select Button, the test shall be stopped immediately regardless of cursor position.</b> When pressing Select Button after moving the cursor to Test, Field Test shall be started and LCD monitor moves to the ball shooting and Sensor Check Count
<b>CLEAR</b>	Delete Test Data While “Yes or No” choice shows up in monitor, select “Yes” by Left or Right button and press the Select Button to delete Field Test Data
<b>EXIT</b>	Exit to previous menu (Exit to previous menu is also possible by pressing Cancel button) When pressing Cancel Button, it stops performing test and exit to previous menu immediately

Following items are contents to be displayed at test information monitor after moving to next screen by pressing Down Button at Exit Menu. When pressing Up Button again, the cursor moves to Menu Items

<p><b>TOTAL BALL &amp; SENSOR</b>          ( 500) 1P      2P  <b>BALL :</b>    0,      0  <b>SEN :</b>      0,      0</p>	<p>Check total number of ball shooting and total count of sensor check state in Field Test          (500: check current setting of ball shooting number) and display of items to divide 1P and 2P          Total ball shooting count          Total sensor check count</p>
<p><b>SENSOR CHECK COUNT</b>   <b>CHK~:</b>    0,      0  <b>BS/W:</b>    0,      0  <b>PIN :</b>      0,      0</p>	<p>Reference only for the comparison of main checker sensor and checker back up micro switch sensor count AND count for the number of checking checker sensor and total count for goal in hole           Ex) When number of ball shooting is 100 and total number of sensor check is 100, if the number of main checker is 15 and goal in hole is 85, total sensor count is 100.          Main checker sensor count          Micro Switch check count for main checker back up          Total number of sensor check count from pin goal in hole #1 to #7</p>
<p><b>PIN HOLE SENSOR</b>  <b>PIN1:</b>    0,      0  <b>PIN2:</b>    0,      0  <b>PIN3:</b>    0,      0</p>	<p>Check Sensor Check Status of each pin hole          #1 Goal In Hole Sensor Check Count (a hole          #2 Goal In Hole Sensor Check Count          #3 Goal In Hole Sensor Check Count</p>
<p><b>PIN4:</b>    0,      0  <b>PIN5:</b>    0,      0  <b>PIN6:</b>    0,      0  <b>PIN7:</b>    0,      0</p>	<p>#4 Goal In Hole Sensor Check Count (a hole right in the center)          #5 Goal In Hole Sensor Check Count          #6 Goal In Hole Sensor Check Count          #7 Goal In Hole Sensor Check Count (a hole at the very right)</p>

## 4-6. ERROR CODE

ERROR CODE	TYPE OF ERROR	CONTENTS	CHECK ITEMS
E.02	System	Setup Saving Data Error	<ol style="list-style-type: none"> <li>1. check or save setup condition</li> <li>2. Factory Setting</li> <li>3. Check power ON or OFF</li> <li>4. Replace Main Board when error occurs continuously</li> </ol>
E.03		Game Saving Data Error	<ol style="list-style-type: none"> <li>1. Clear Data at Set Up Clear Mode</li> <li>2. Check the power (ON/OFF)</li> <li>3. Replace Main Board when error occurs continuously</li> </ol>
E.11	Coin Selector	Continuous existence of player coin sensor signal	Check input of defective coin sensor
E.13	Bill Collector	Continuous existence of bill collector sensor signal	Check sensor input of bill collector
E.21	MK(PC) Serial Communication	<p>No communication between Video and MK (PC)</p> <p><b>Video display can not be controlled in communication error. So it needs to be taken care of separately and main board error is to be shown at FND</b></p>	<ol style="list-style-type: none"> <li>1. Check wiring connection</li> <li>2. Check MK (PC) Operation (normal booting)</li> <li>3. Check mainboard communication</li> </ol>
E.31	Main Checker Motor	No signal from equinoctial encoder	<ol style="list-style-type: none"> <li>1. Check operation status of motor</li> <li>2. Check encoder sensor input status</li> </ol>
E.35		Checker sensor problem (Existence of continuous signal)	<ol style="list-style-type: none"> <li>1. Check wiring connection</li> <li>2. Check the sensor input status</li> </ol>
E.41	Card Belt Distribute Motor	No encoder signal	<ol style="list-style-type: none"> <li>1. Check operation status of motor</li> <li>2. Check encoder sensor input status</li> </ol>
E.43		Continuous existence of card drop sensor signal	<ol style="list-style-type: none"> <li>1. Check the operation status of motor</li> <li>2. Check drop sensor operation status</li> </ol>
		No card drop sensor signal	<ol style="list-style-type: none"> <li>3. Check card-jam in card belt</li> <li>4. Check the direction of motor rotation</li> </ol>

\* When "E.02", "E.03", "E.21" error occurs, game completely stops. In case of other errors, however, only plays with those errors stop.

E.51	Pin Swing Motor	No signal from pin swing motor encoder	1. Check operation status of motor 2. Check encoder sensor input status
E.61	Ball Shooting Elevator	Occurrence of problem of Elevator Jam	1. Check ball jamming 2. Check encoder sensor
E.62		Problem of upper ball shooting sensor (No signal)	1. Check existence of ball 2. Check status of ball
E.71	Pin Hole Goal In Sensor	Continuous existence of sensor signal at pin goal in hole #1	1. Check status of pin goal in hole sensor #1
E.72		Continuous existence of sensor signal at pin goal in hole #2	1. Check status of pin goal in hole sensor #2
E.73		Continuous existence of sensor signal at pin goal in hole #3	1. Check status of pin goal in hole sensor #3
E.74		Continuous existence of sensor signal at pin goal in hole #4	1. Check status of pin goal in hole sensor #4
E.75		Continuous existence of sensor signal at pin goal in hole #5	1. Check status of pin goal in hole sensor #5
E.76		Continuous existence of sensor signal at pin goal in hole #6	1. Check status of pin goal in hole sensor #6
E.77		Continuous existence of sensor signal at pin goal in hole #7	1. Check status of pin goal in hole sensor #7
E.78		No signal from main checker or pin goal in hole sensor	1. Check ball jamming 2. Check status of pin goal in sensor
E.81	Card Dispenser	No card or non-operation of card distributing device	1. Check existence of card 2. Check card distributing device
HELP Display at video ticket window	Ticket Error	No Tickets	1. Check existence of ticket 2. Check operation of ticket motor 3. Check ticket distributing sensor
<p>※ Normally Error Code will be displayed at SET UP LCD, Player's monitor where error occurred and Pin Hole Score FND. Error message and Error Code Number will be displayed.</p> <p>※ Normally MK communication error will be displayed at SETUP LCD and PIN HILE SCORE FND As an exceptional handling apart from this, Error Message will be shown on the screen when there is no communication code within 1 mininuteby MK itself</p>			

## 4-7. ERROR CODE DETECTION METHOD

ERROR CODE	ERROR TYPE	CONTENTS	ERROR DETECTION CONDITION
E.02	System	Problem of Set Up Data Saving	Check setup-related back up memory at main board after power on
E.03		Problem of Game Data Saving	Check game-related back up memory at main board after power on
E.11	Coin Selector	Continuous existence of player coin sensor signal	Continuous signal for more than two seconds while INHIBT is ON
E.13	Bill Collector	Continuous existence of player bill collector sensor signal	Existence of signal for more than two seconds
E.21	MK(PC) Serial Communication	No communication between Video presentation and MK (PC)  <b>Video display can not be controlled in communication error. So it needs to be taken care of separately and main board error is to be shown at FND</b>	1. Before MK Booting It's an error if there is no signal for one minute Booting 2. After MK Booting (completion of main booting) It's an error if there is no signal for 30 seconds (Processing of signal 10 times at an interval of 3 seconds)
E.31	Main Checker Motor	No signal from equinoctial encoder	No signal for two seconds
E.35		Checker sensor problem (Existence of continuous signal)	Continuous existence of signal for more than three seconds
E.41	Card Belt Distributing Motor	No encoder signal	No signal for two seconds
E.43		Continuous existence of card drop sensor signal	Continuous existence of signal for more than three seconds
E.44		No card drop sensor signal	No card drop sensor signal while five cards are distributed
E.51	Pin Swing Motor	No encoder signal from pin swing motor	No signal for more than two seconds

<b>E.61</b>	<b>Ball Shooting Elevator</b>	Problem of Elevator Jamming	In case no encoder signal for over twoseconds, try reverse rotation and then try forward rotation for total 4 times
<b>E.62</b>		Problem of upper ball shooting sensor (No signal)	No distribute sensor signal while ball elevator tries 5 times at an interval of 3 seconds
<b>E.71</b>	<b>Pin Goal In Hole Sensor</b>	Continuous existence of sensor signal at pin goal in hole #1	Continuous Sensor Signal for more than
<b>E.72</b>		Continuous existence of sensor signal at pin goal in hole #2	
<b>E.73</b>		Continuous existence of sensor signal at pin goal in hole #3	
<b>E.74</b>		Continuous existence of sensor signal at pin goal in hole #4	
<b>E.75</b>		Continuous existence of sensor signal at pin goal in hole #5	
<b>E.76</b>		Continuous existence of sensor signal at pin goal in hole #6	
<b>E.77</b>		Continuous existence of sensor signal at pin goal in hole #7	
<b>E.78</b>		No signal from main checker or pin goal in hole sensor	If there is no main checker or goal in hole sensor signal for 15 seconds after shooting 10 balls
<b>E.81</b>	<b>Card Dispenser</b>	No Card or Card dispensing device does not work	There is no sensor signal total 3 timesduring card distributing operation

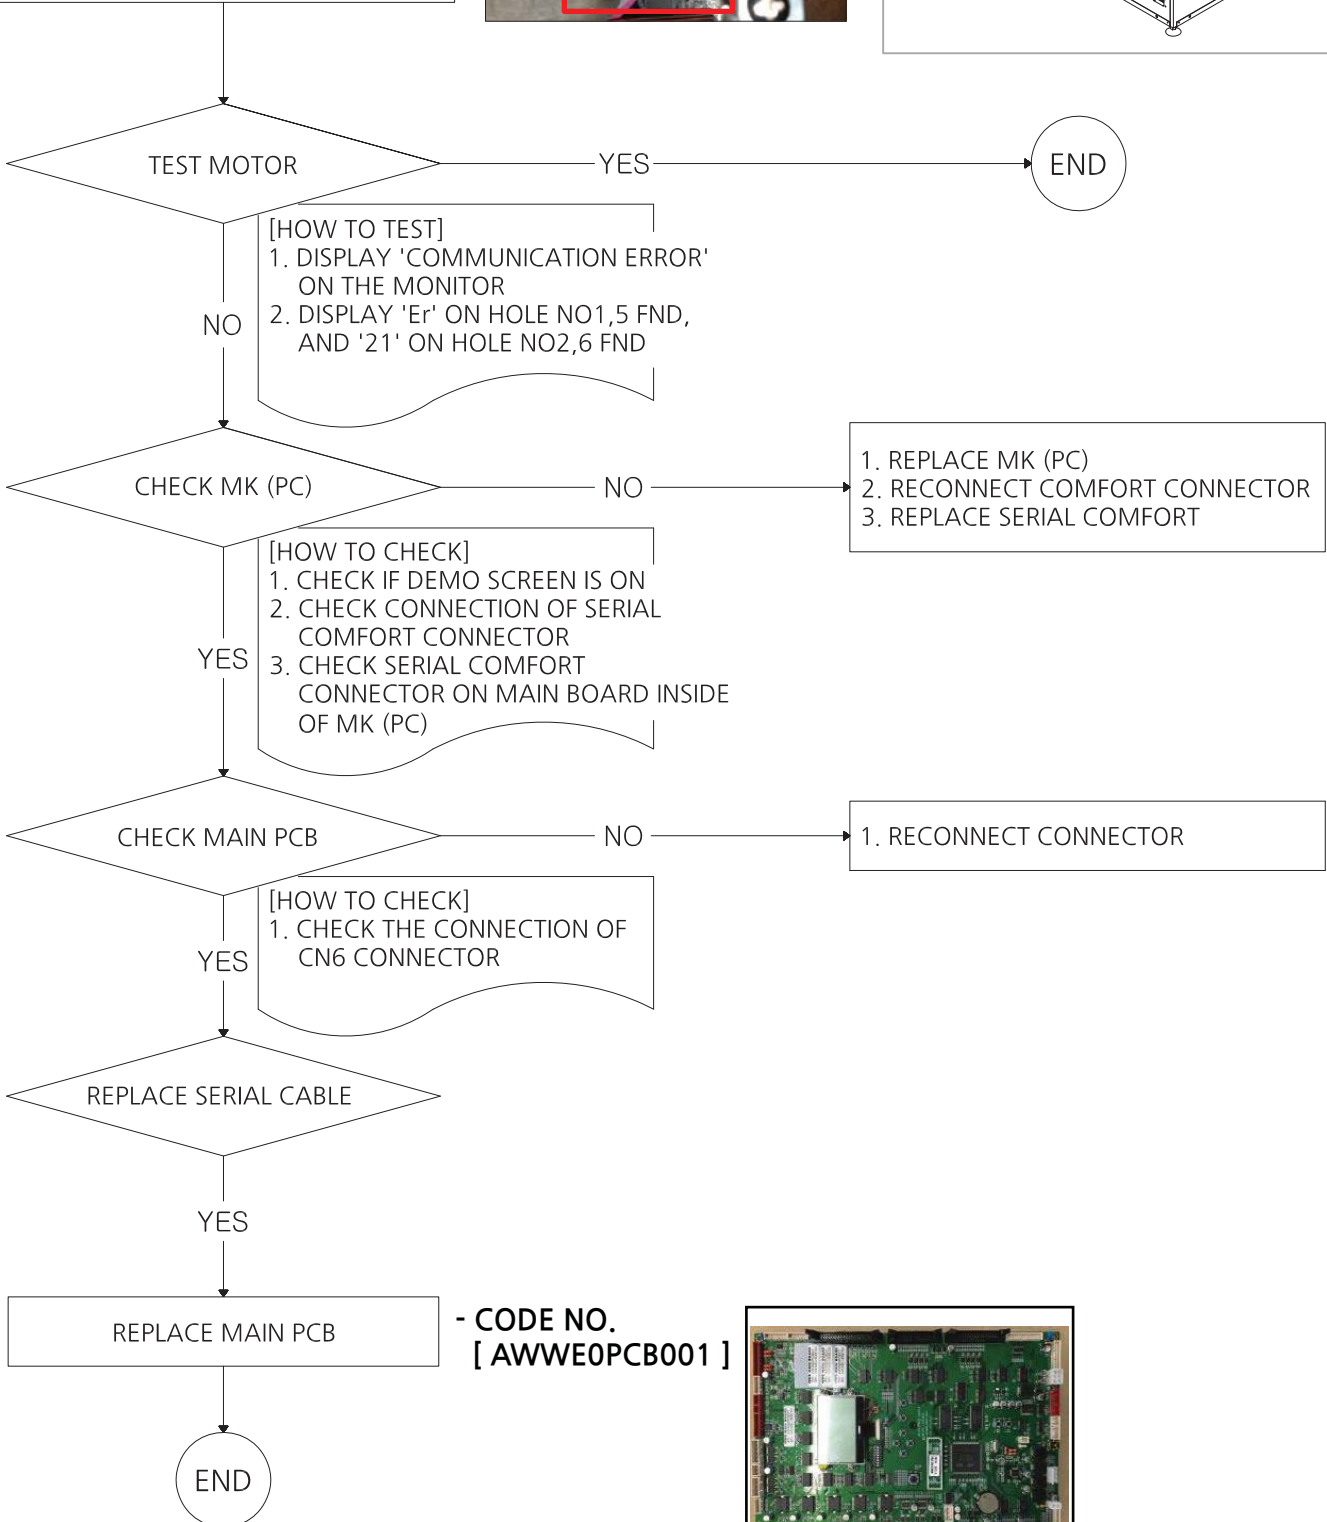

# 5. TROUBLESHOOTING

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-1. SERIAL COMMUNICATION ERROR [E.21] - IN CASE OF POOR COMMUNICATION BETWEEN MAIN PCB AND MK (PC)

SERIAL COMMUNICATION ERROR [E.21]

- CODE NO.  
 [ AWWWE0PCB001 ]

- \* General check up : Check the supply voltage and wiring connection properly
- \* "NO" : Means faulty of the check up result.

## 5-2. MAIN CHECKER MOTOR ERROR [E.31] - IN CASE THE MOTOR IS PROBLEM

REPLACE MAIN CHECKER MOTOR

NO

REPLACE MAIN PCB

END

- CODE NO.  
[ MZZZ0MOT141 ]

- CODE NO.  
[ AWWEOPCB001 ]

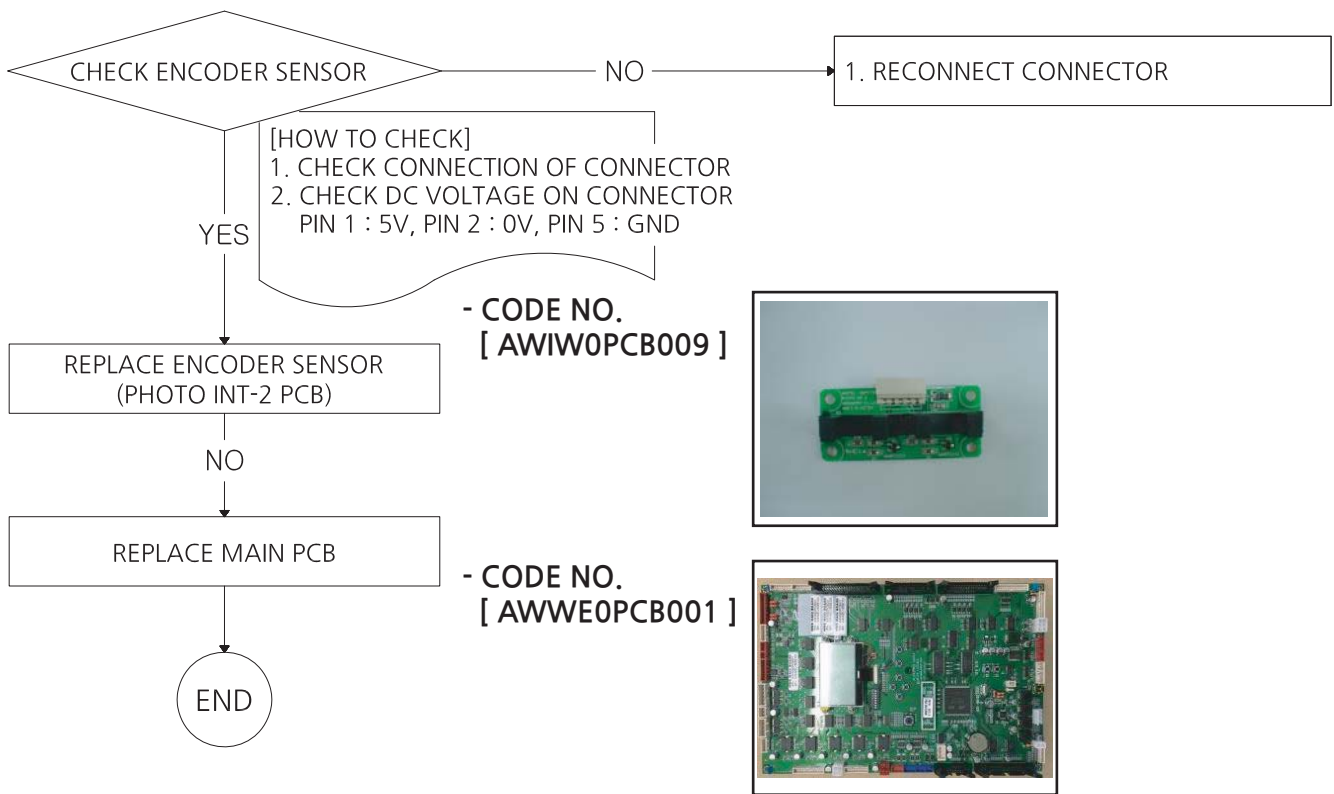

- \* General check up : Check the supply voltage and wiring connection properly
- \* "NO" : Means faulty of the check up result.

## 5-3. MAIN CHECKER MOTOR ERROR [E.31]

### - NO SIGNAL ON ENCODER

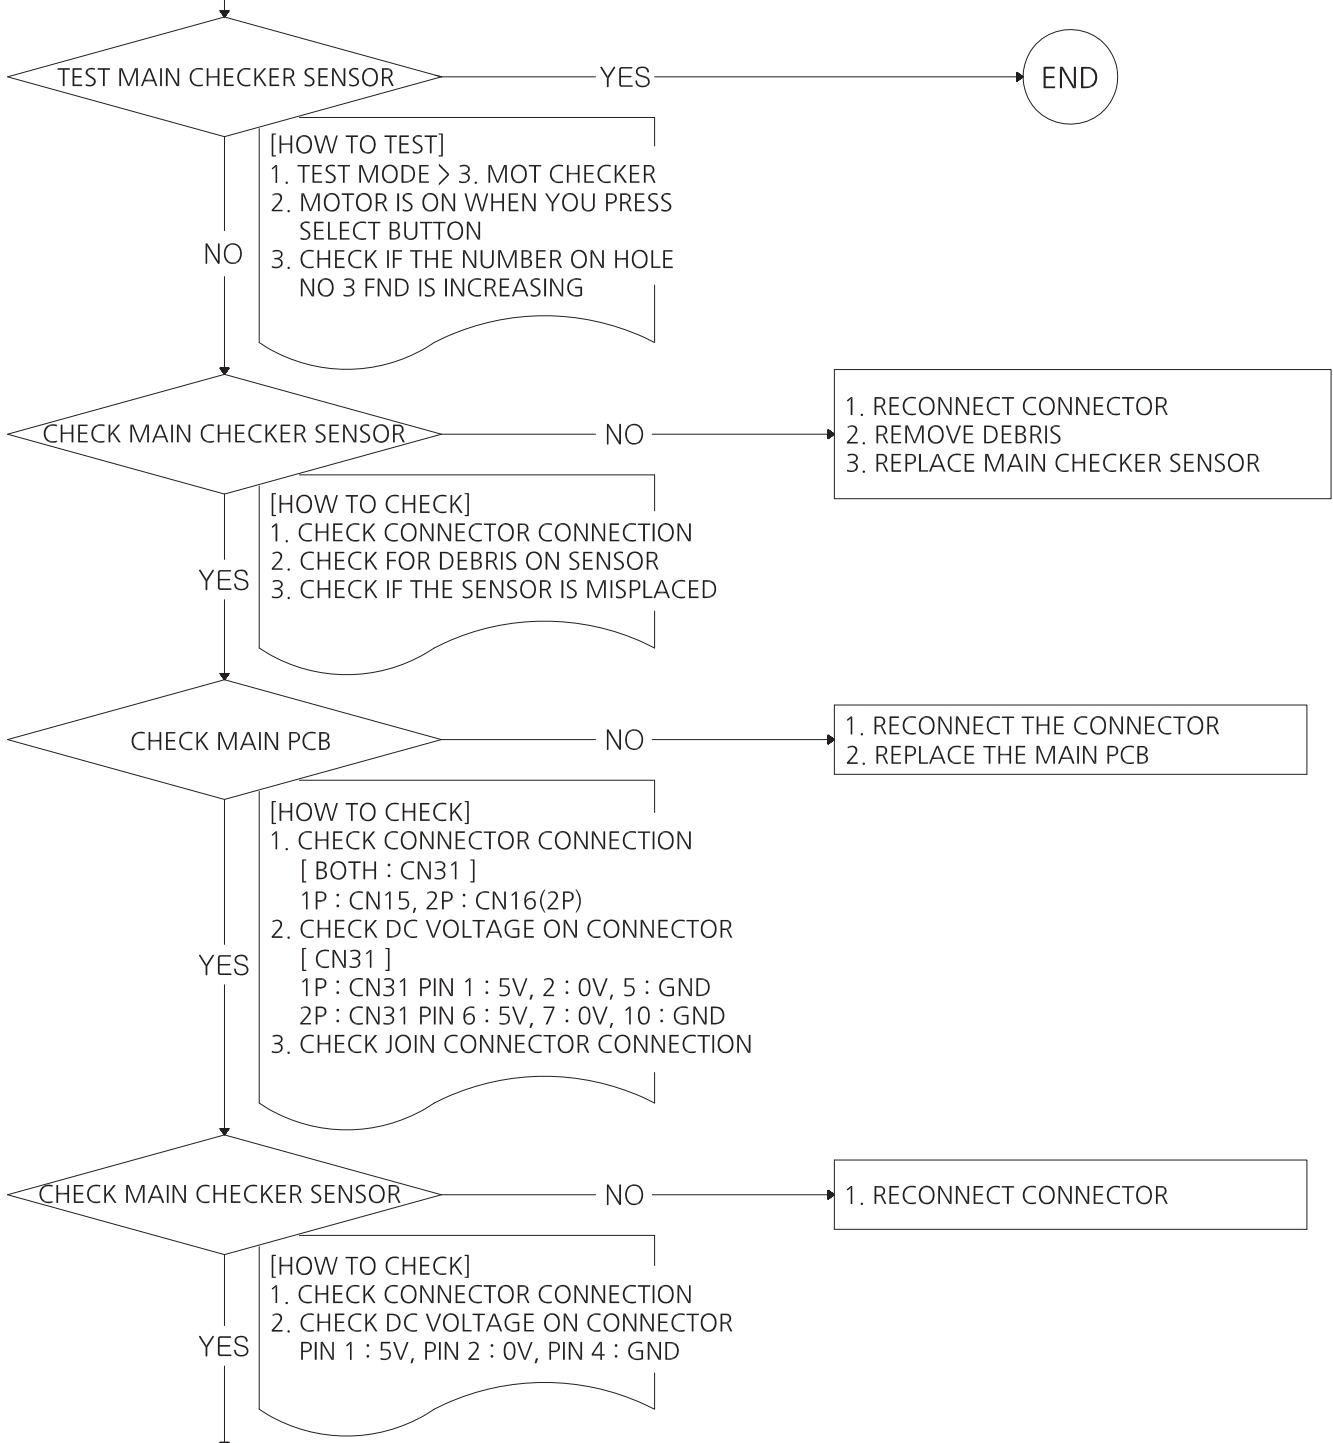

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-4. MAIN CHECKER SENSOR ERROR [E.35] (BONUS TARGET SENSOR PCB)

- SIGNAL OF CHECKER SENSOR KEEPS ON

MAIN CHECKER SENSOR  
 (BONUS TARGET SENSOR PCB) ERROR [E.35]

REPLACE MAIN CHECKER SENSOR  
(BONUS TARGET SENSOR PCB)

NO

REPLACE MAIN PCB

END

- CODE NO.  
[ AWWEOPCB005 ]

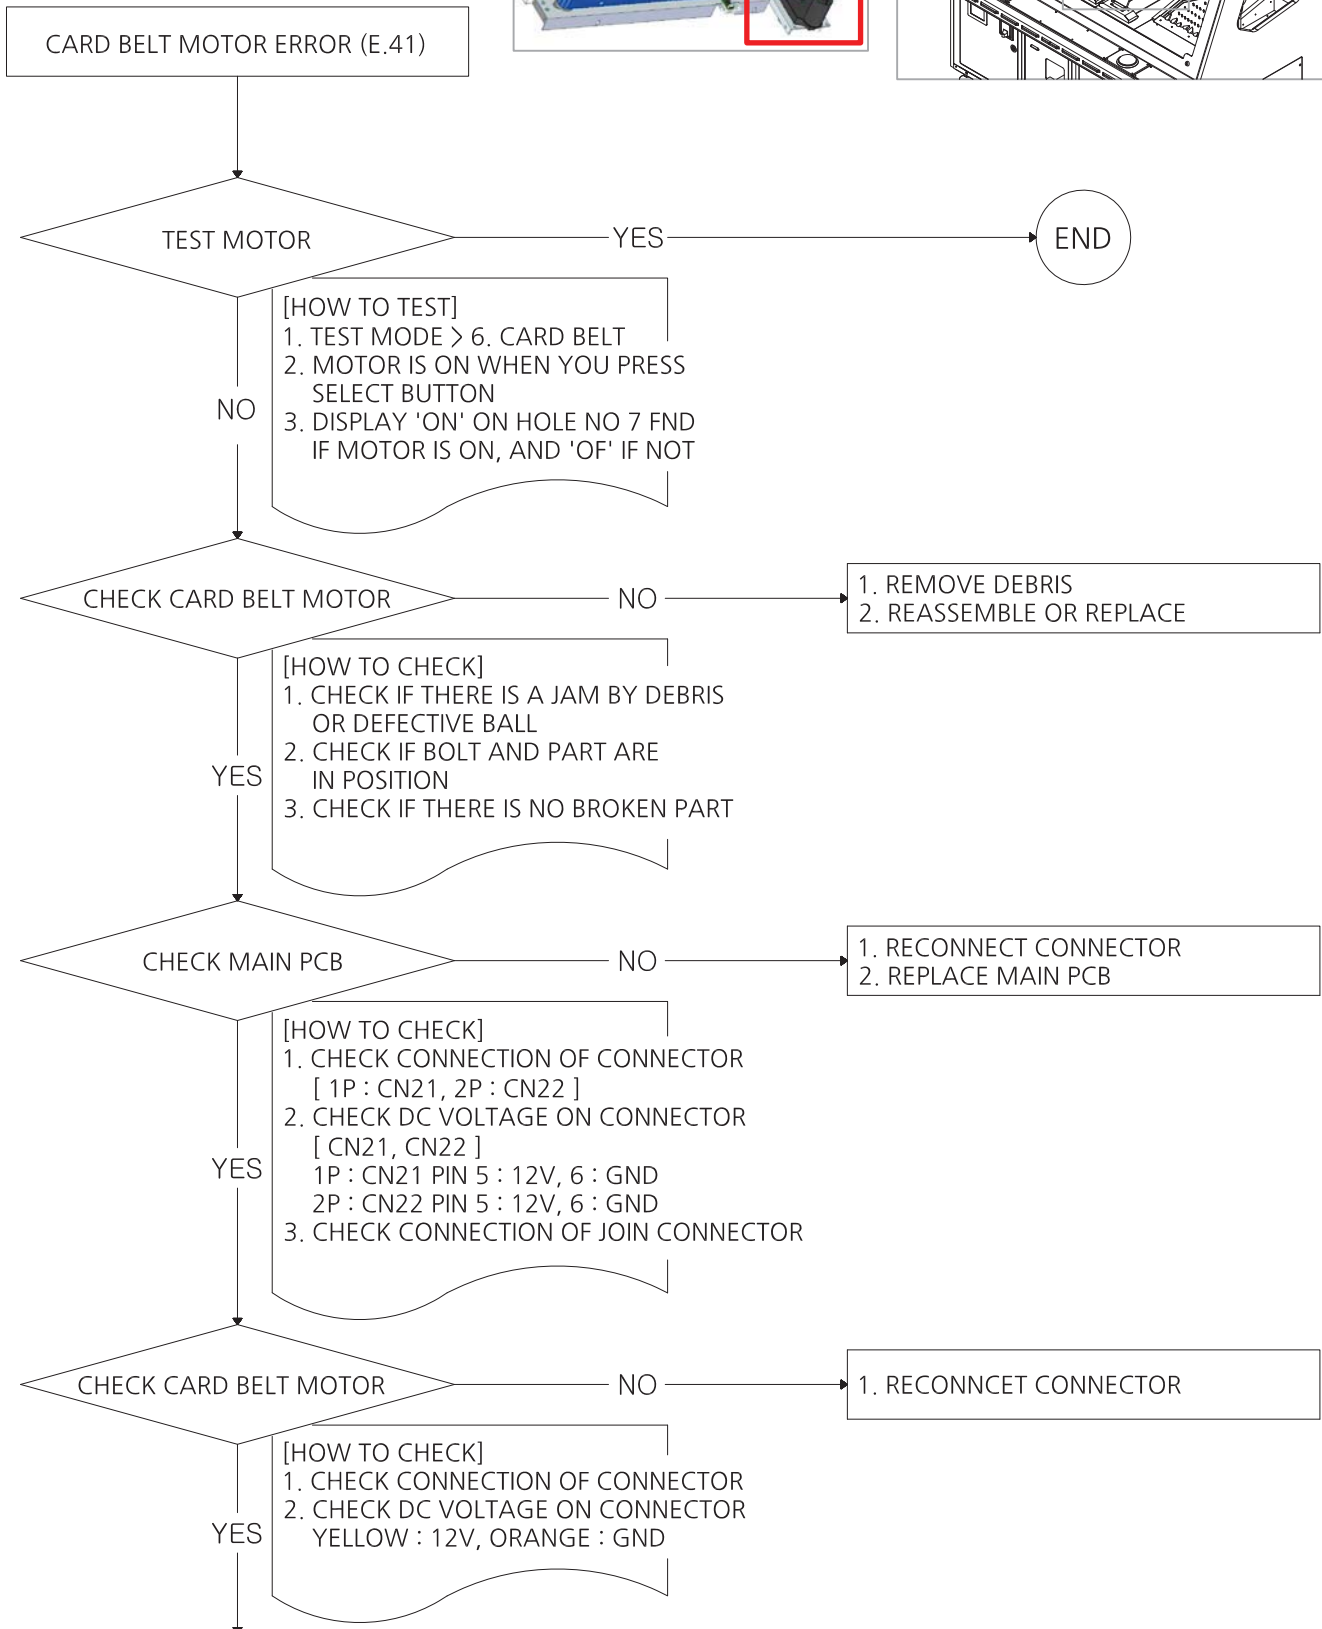

- CODE NO.  
[ AWWEOPCB001 ]

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-5. CARD BELT MOTOR ERROR [E.41] - IN CASE THE CARD BELT MOTOR IS PROBLEM

REPLACE MOTOR

NO

REPLACE MAIN PCB

END

- CODE NO.  
[ MZZZ0MOT115 ]

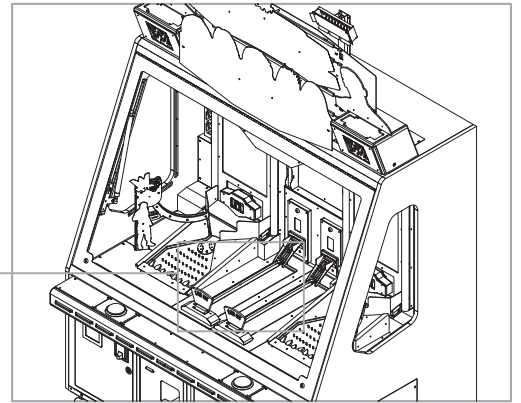

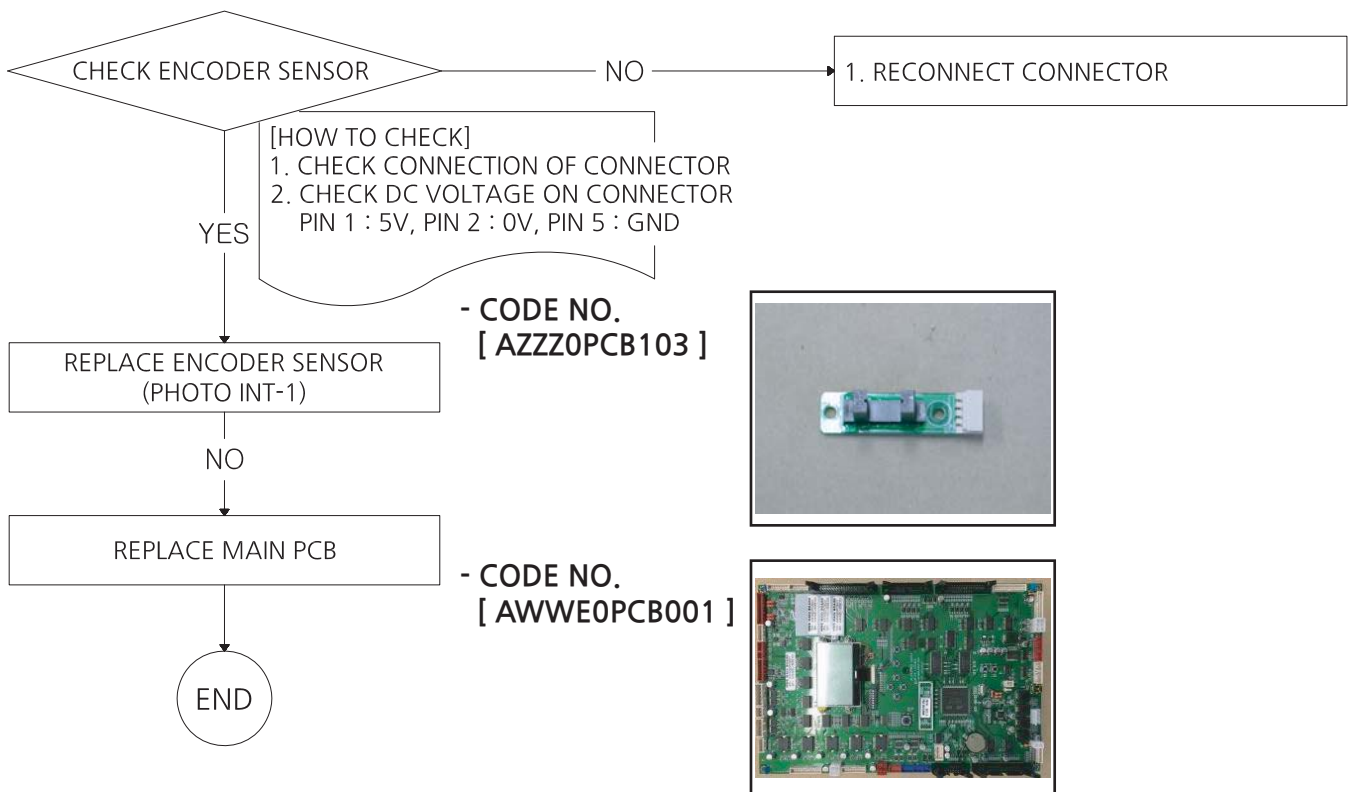

- CODE NO.  
[ AWWEOPCB001 ]

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

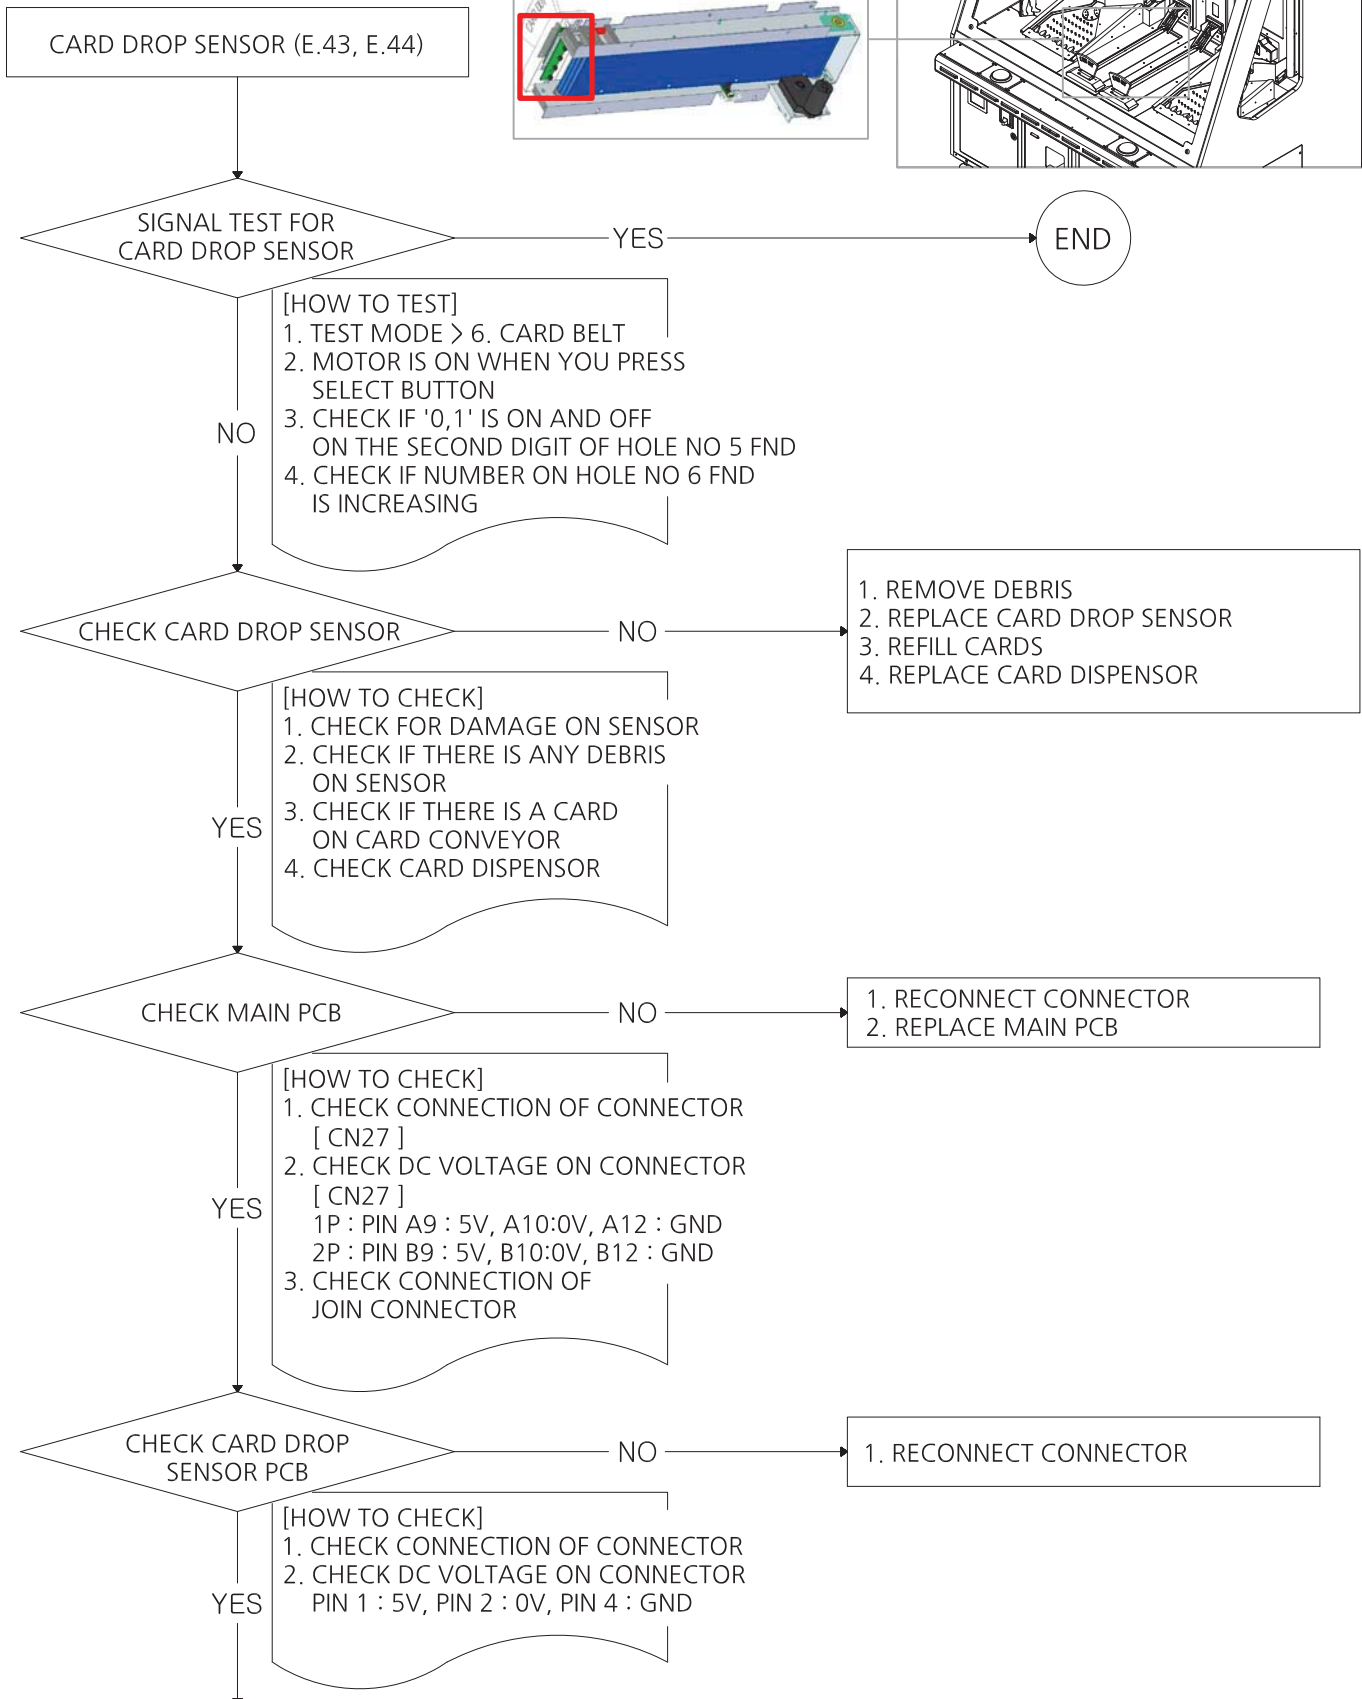

## 5-6. CARD BELT MOTOR ERROR [E.41] - NO SIGNAL ON ENCODER

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-7. CARD DROP SENSOR [E.43, E.44] - SIGNAL KEEPS ON OR NO SIGNAL

REPLACE CARD DROP SENSOR

NO

REPLACE MAIN PCB

END

- CODE NO.  
[ ADM30PCB003 ]

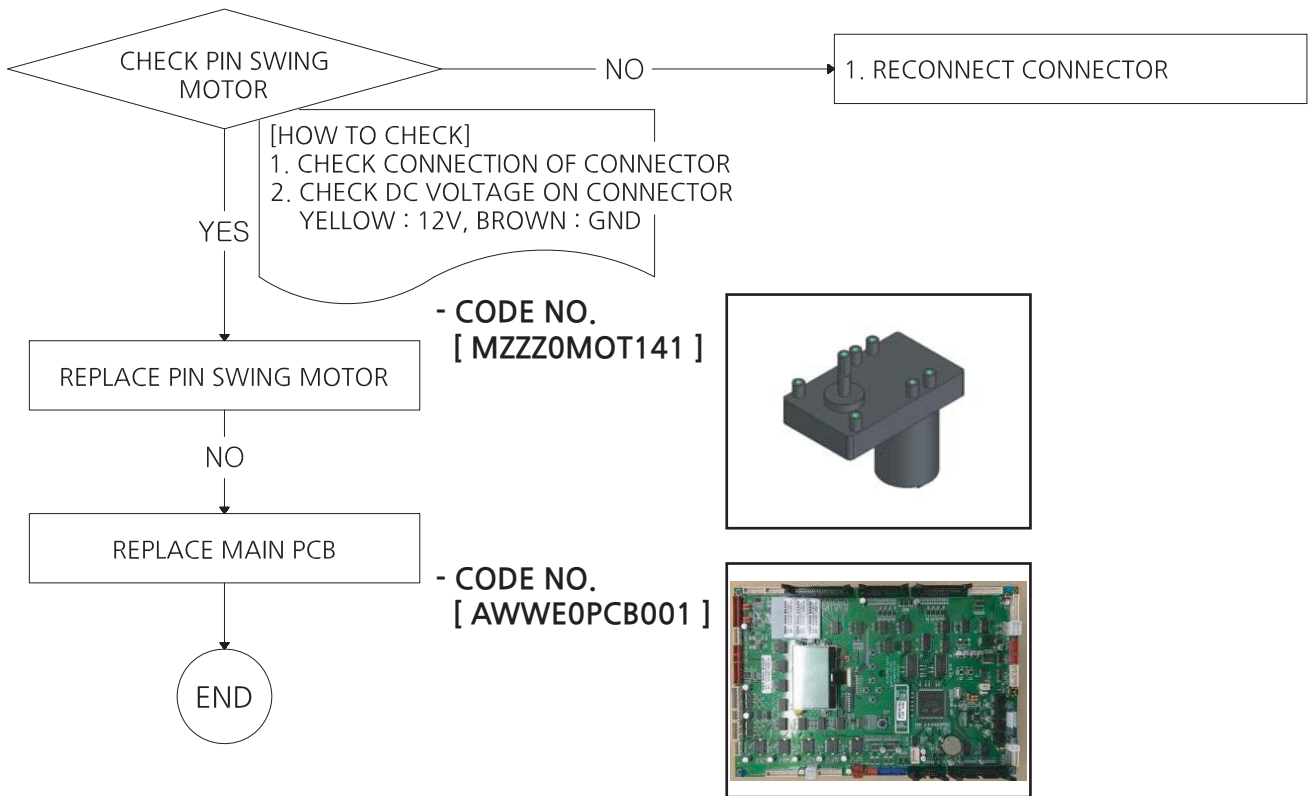

- CODE NO.  
[ AWE0PCB001 ]

- \* General check up : Check the supply voltage and wiring connection properly
- \* "NO" : Means faulty of the check up result.

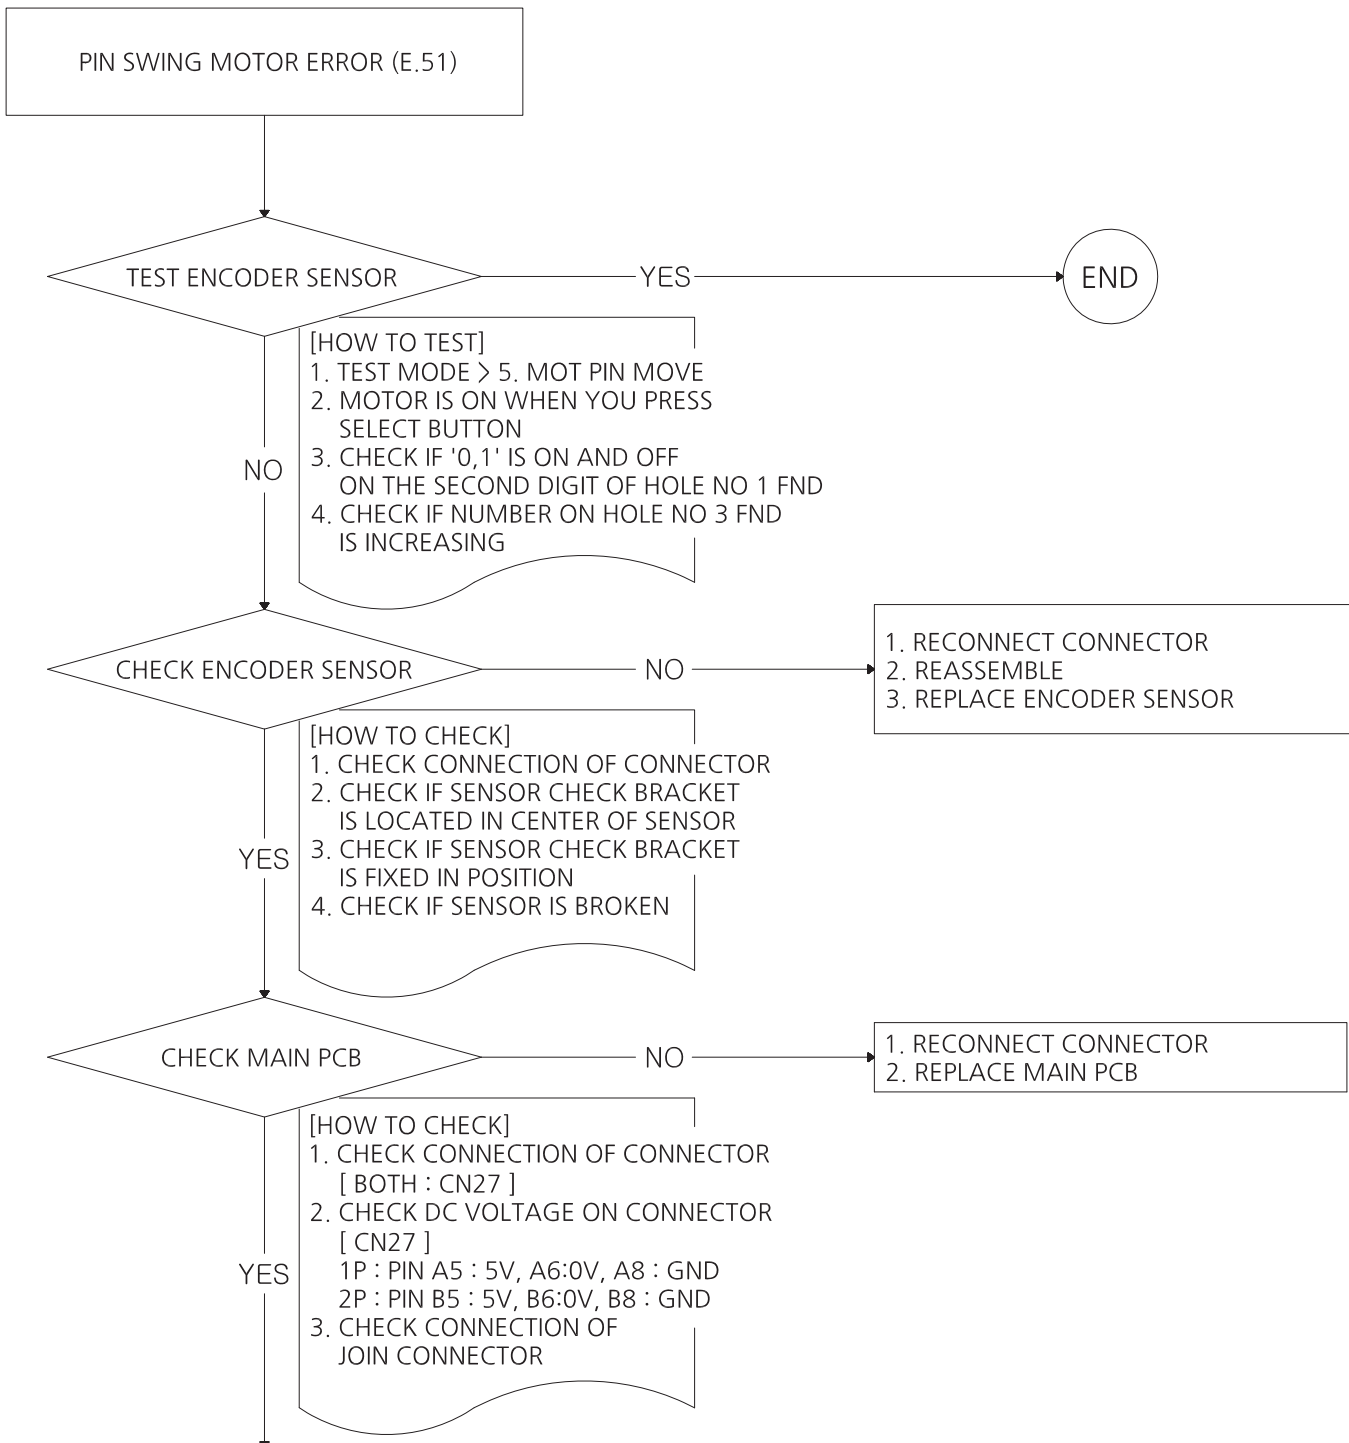

## 5-8. PIN SWING MOTOR ERROR [E.51] - IN CASE THE MOTOR IS PROBLEM

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-9. PIN SWING MOTOR ERROR [E.51] - NO SIGNAL ON ENCODER

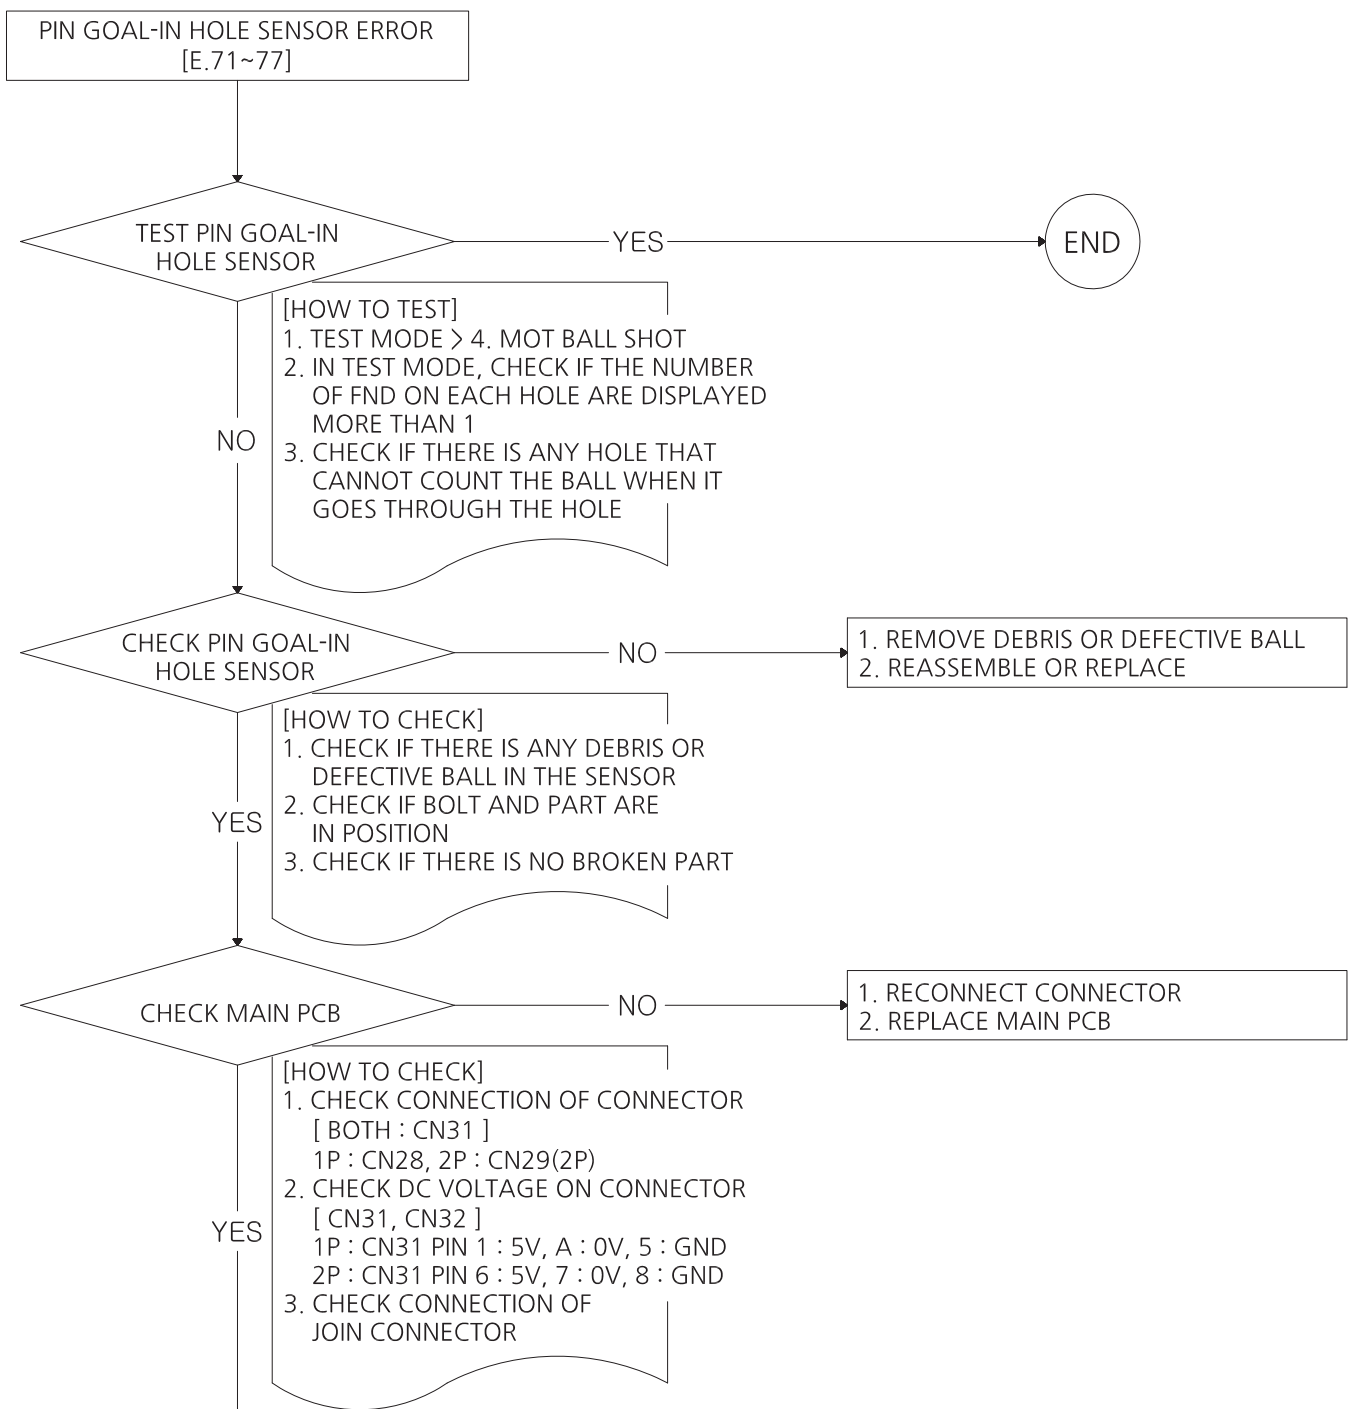

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-10. PIN GOAL-IN HOLE SENSOR ERROR [E.71~77]

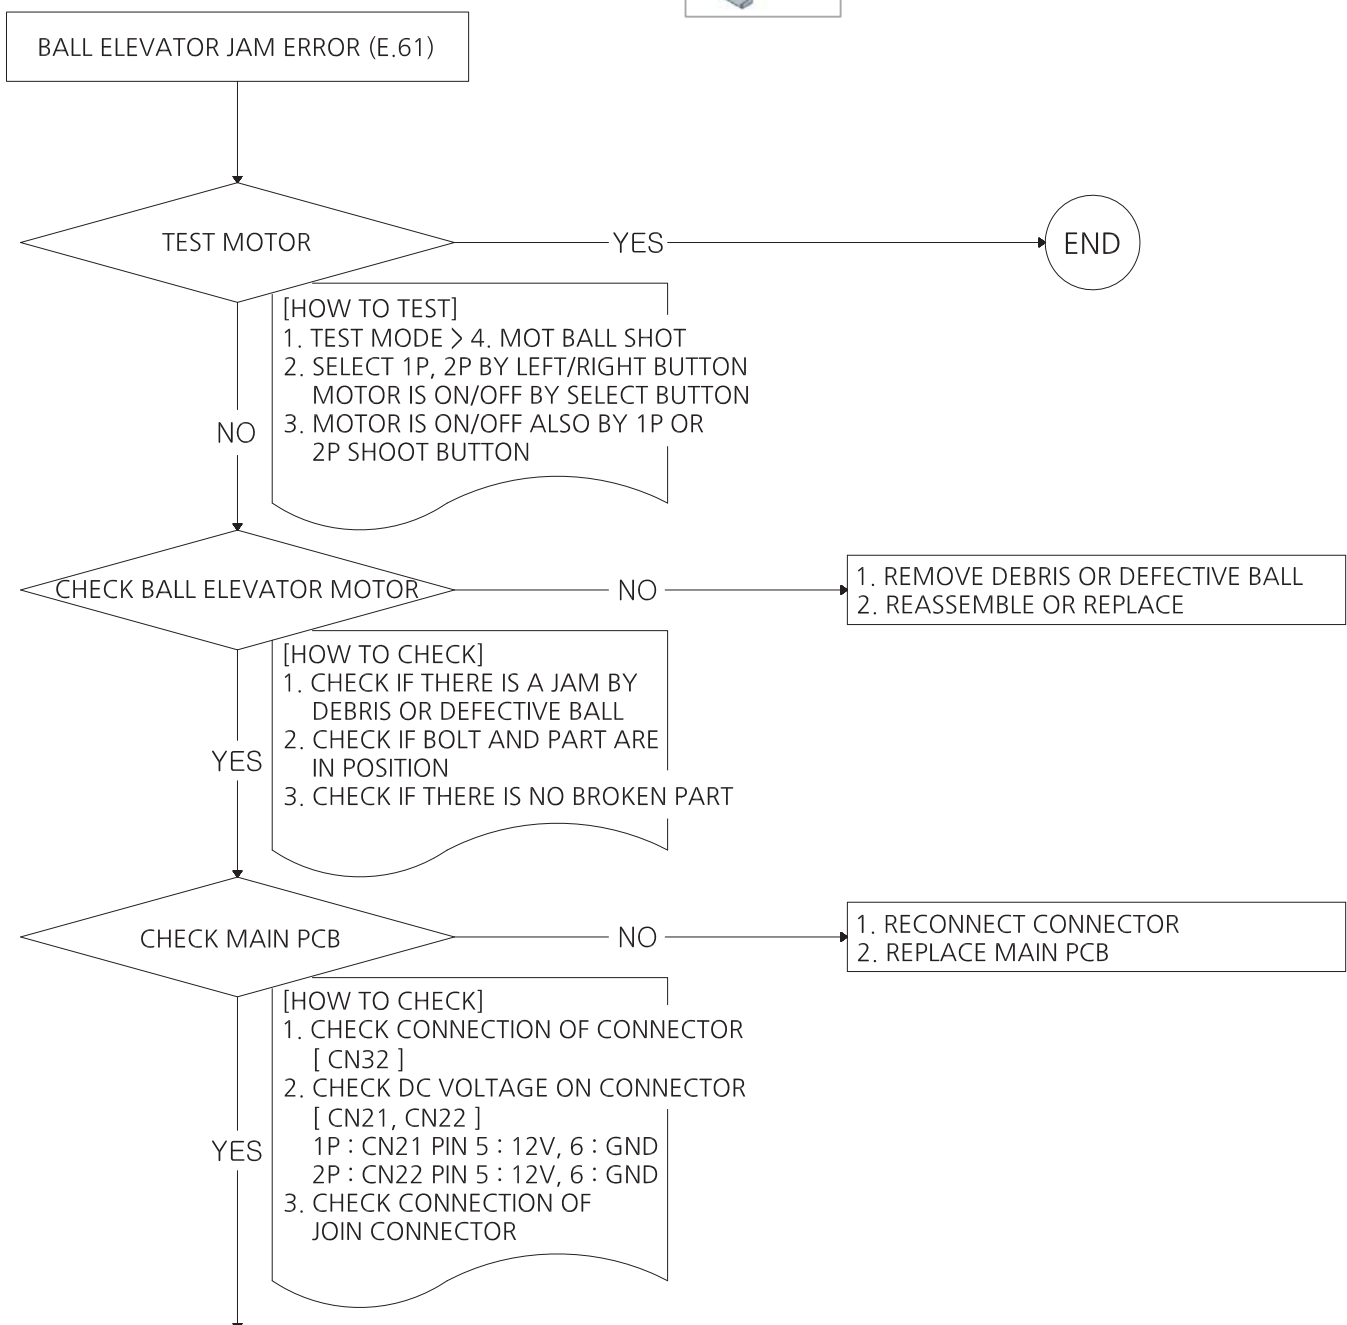

- IN CASE THE SIGNAL KEEPS ON

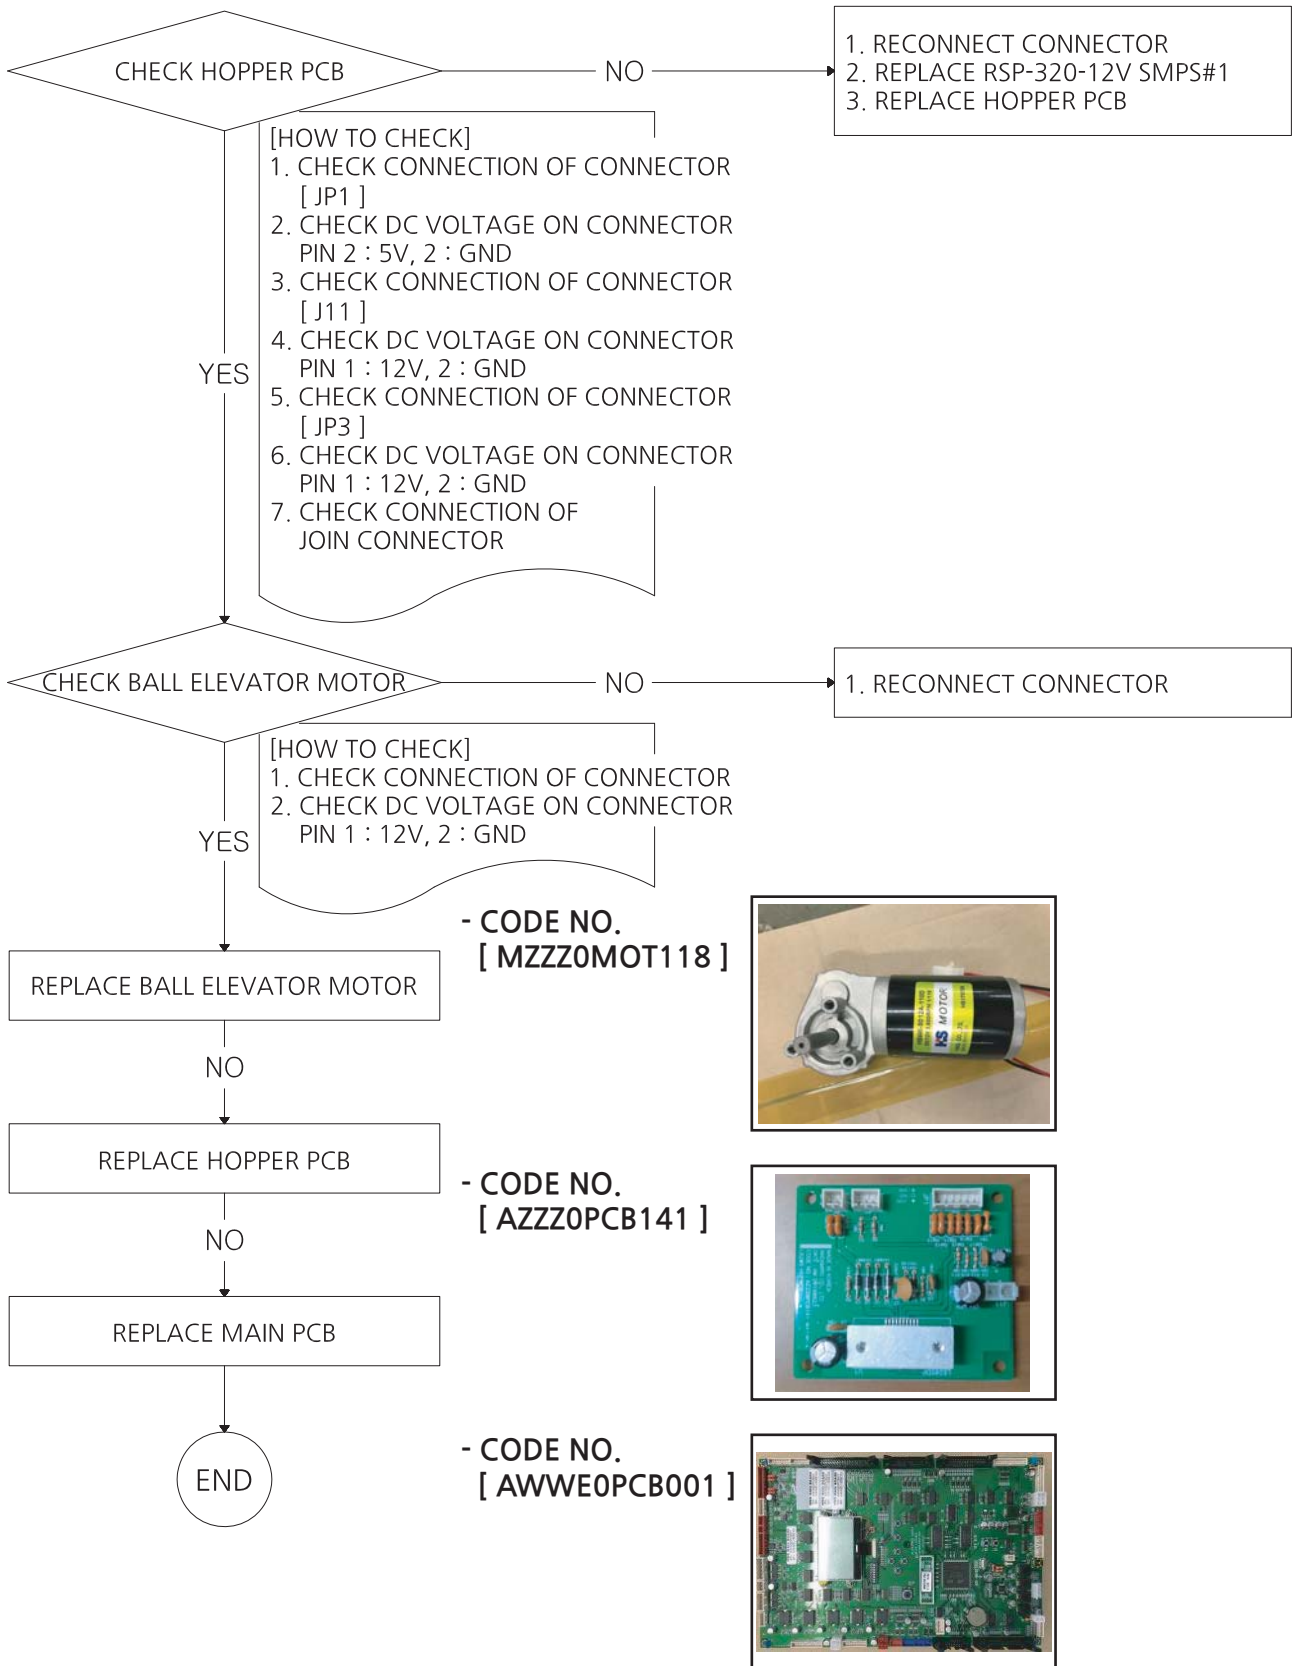

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-11. BALL ELEVATOR JAM ERROR [E.61] - IN CASE THE ELEVATOR MOTOR IS PROBLEM

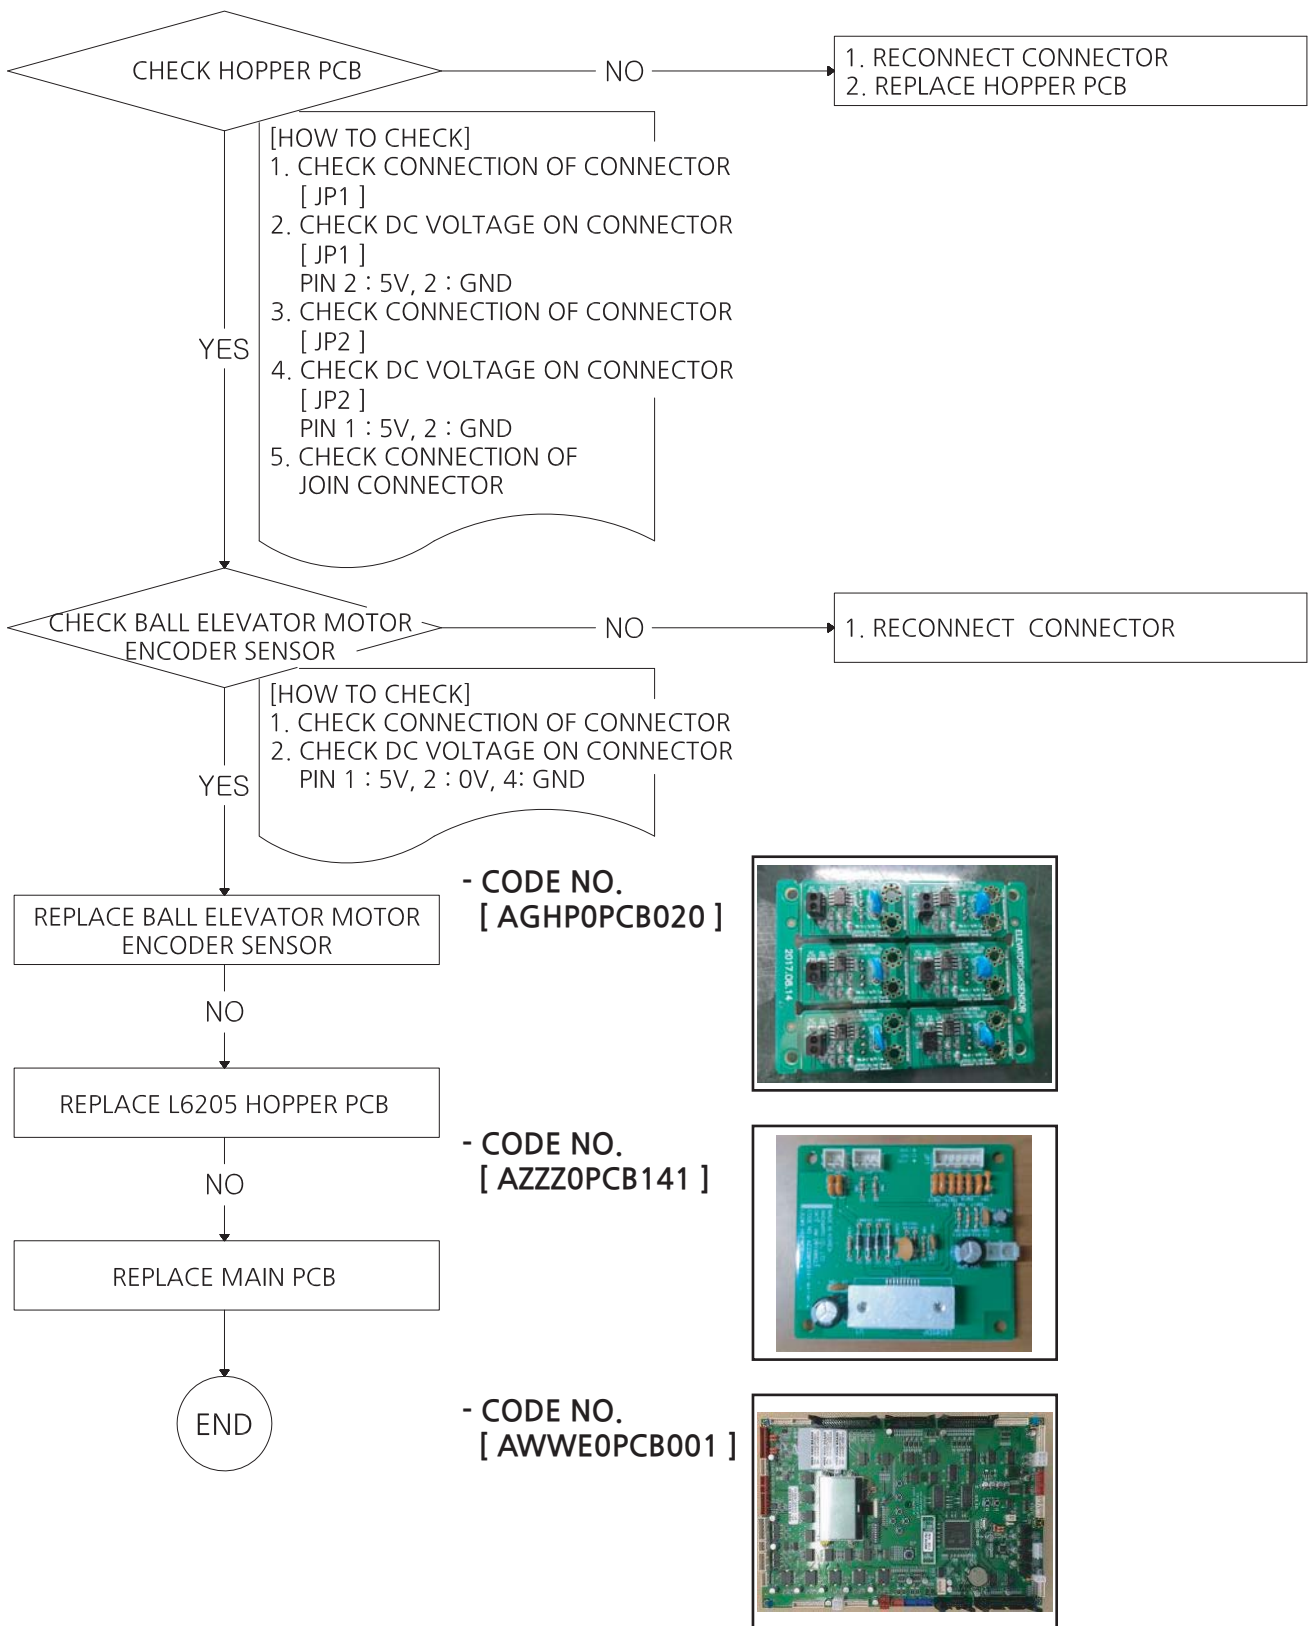

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-12. BALL ELEVATOR JAM ERROR [E.61] - IN CASE THE ELEVATOR MOTOR ENCODER SENSOR IS PROBLEM

\* General check up : Check the supply voltage and wiring connection properly  
 \* "NO" : Means faulty of the check up result.

## 5-13. BALL ELEVATOR SENSOR ERROR [E.62] - IN CASE UPPER BALL SENSOR IS PROBLEM

REPLACE BALL ELEVATOR  
UPPER SENSOR

NO

REPLACE MAIN PCB

END

- CODE NO.  
[ AZZZ0PCB103 ]

- CODE NO.  
[ AWWE0PCB001 ]

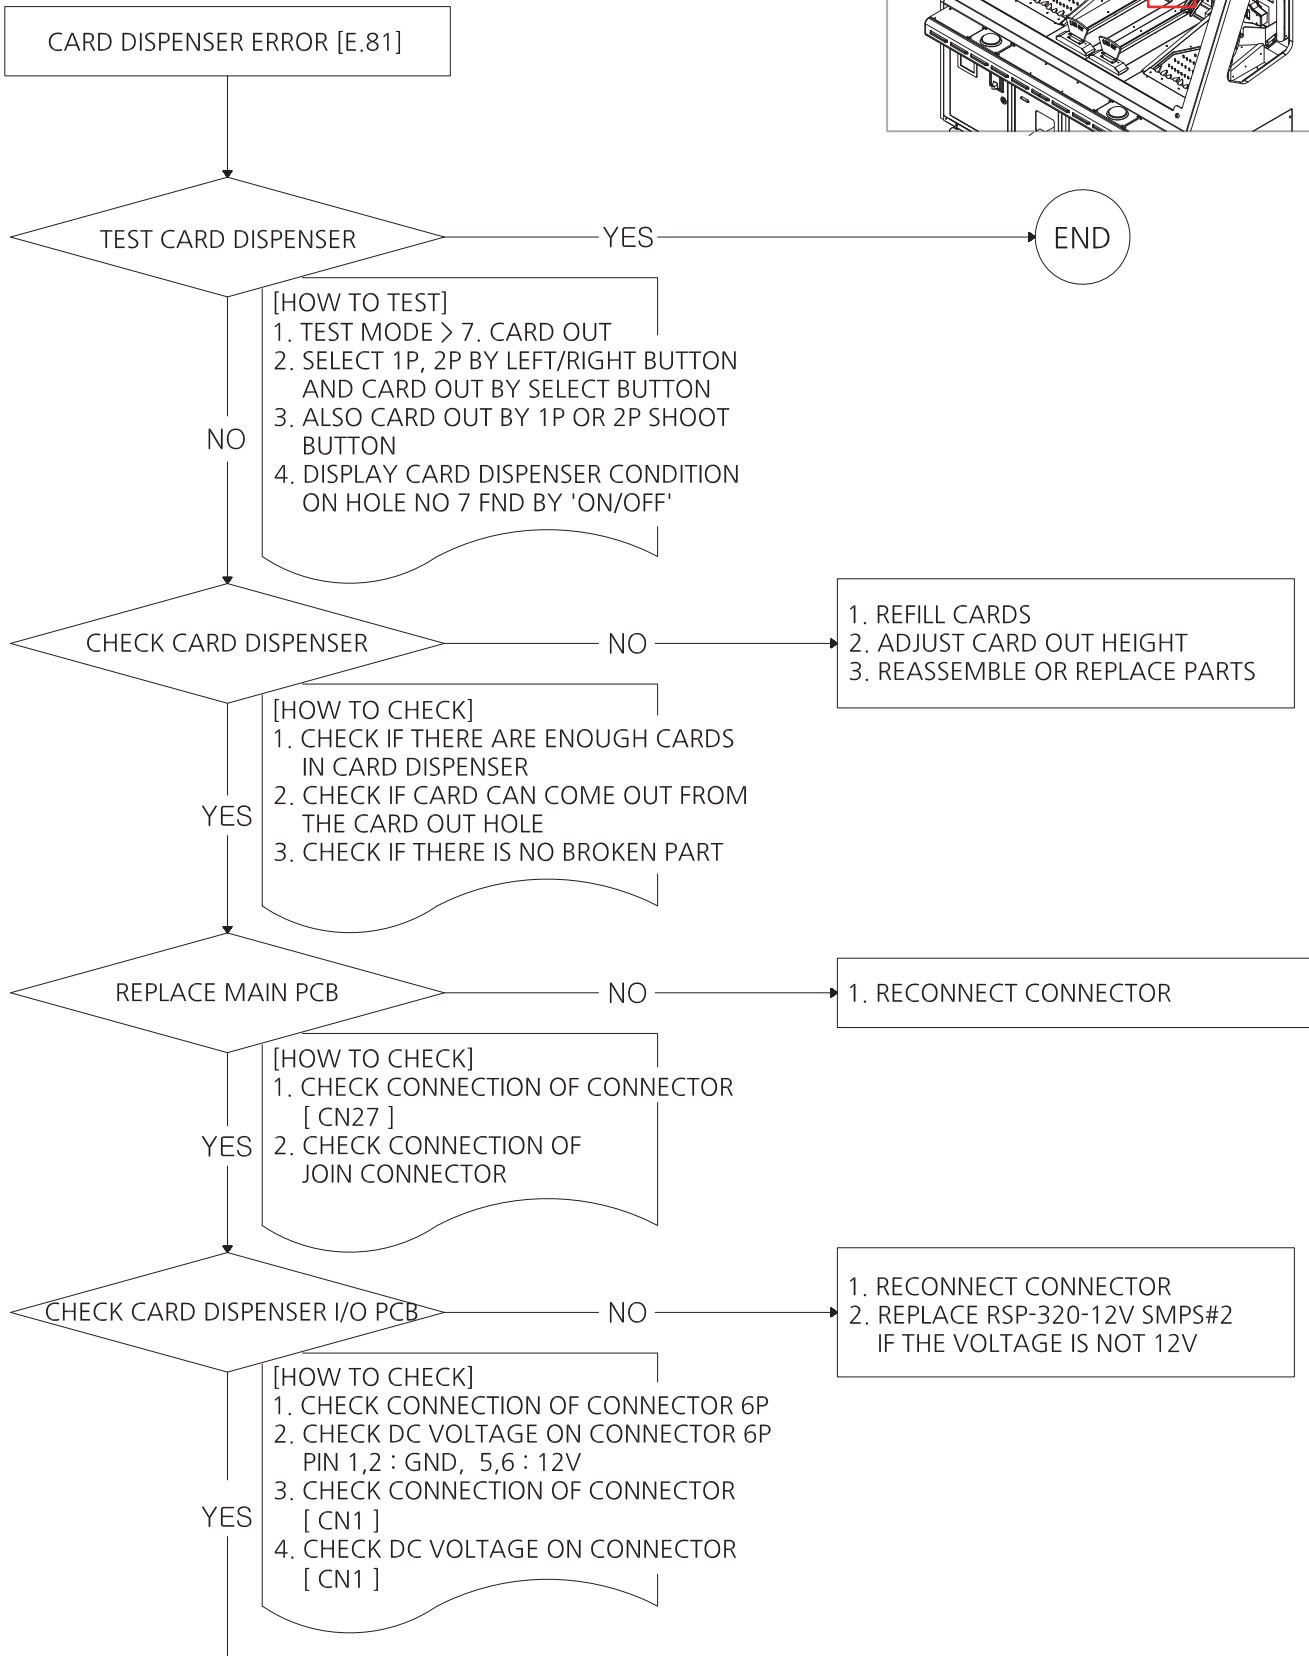

- \* General check up : Check the supply voltage and wiring connection properly
- \* "NO" : Means faulty of the check up result.

## 5-14. CARD DISPENSER ERROR [E.81]

### - NO CARD OR CARD DISPENSER IS PROBLEM

CARD DISPENSER

REPLACE CARD DISPENSER MOTOR

NO

REPLACE CARD DISPENSER I/O PCB

NO

REPLACE MAIN PCB

END

- CODE NO.  
[ MZZZ0MOT089 ]

- CODE NO.  
[ ASBP0PCB008 ]

- CODE NO.

# HOW TO ADJUST THE GAP OF CARD DISPENSER

1

- Open upper door of back side of the machine and disassemble the metal part back side of card dispenser as a picture. [Bolt 4ea]

2

- Unlock little bit of fix bolt 2ea at No.1.

3

- Prepare CARD SETTING JIG as a picture.

4

- Set CARD SETTING JIG to No.2 place. (lower side of black acrylic)  
[Refer to the right picture]

5

- Lock the bolt of section 2 pressing the upper side of black acrylic.  
After fixing, remove the card.

6

- Check if it is tight when you try to insert the CARD SETTING JIG again as left picture.  
If it is easy to insert or impossible to insert, go back to section 2 and work again.

- Gap between the arrows of left picture (No.2 of section 4)  
Allowable value: 1.1~1.3 mm  
Thickness of normal card: 0.8 mm

7

- After processing until section 6, run operation test.  
TEST MODE -> No. 7 CARD OUT TEST

## **ANDAMIRO WARRANTY POLICY**

Andamiro warrants to the original purchaser that all of its products will be free from defects in material and workmanship.

**Andamiro warrants the parts from date of shipment as follows.**

- **One Year Limited Warranty : Electronic Boards**
- **6 Months Limited Warranty : Moving Parts**

For any key components within the warranty period, Andamiro will repair or replace defective components free of charge.

When placing a warranty request, the customer is requested to furnish the following information:

1. Name of the game.
2. Serial Number of the game.
3. A Detailed Description of the defect/s experienced.

This warranty does not apply to the defects caused due to misuse or abuse of the product.

Any alterations made to game or game parts will void this warranty.

For warranty details on our product range please visit our website, [www.andamiro.com](http://www.andamiro.com).

ANDAMIRO CO., LTD.  
[www.andamiro.com](http://www.andamiro.com)

Please complete the following request form to place a warranty request and send it to ANDAMIRO Korea either by fax (Fax No: +82-31-908-7548) or by e-mail. The e-mail address of the person in charge of each region is shown in our web-site, [www.andamiro.com](http://www.andamiro.com)

For the on-line request, please visit our web-site, [www.andamiro.com](http://www.andamiro.com) and click "Customer Service" and then click "Contact Us" in which you shall find the e-mail address of the person in charge of each region.
